Subject: RE: Woodland Hills II P.D. 08-324 CC-Staff Report

Mr.. Bacchus if the 6000 s.f. lots will only be allowed in the Senior development then I would resend

my objection to the change in the development.

Re: Woodland Hills II planned development north side of walnut grove, case number

P.D.08-324-CC

We are writing to inform you that after looking at the above development proposal by the Coastal Fules, Inc and discussing the plan with Mr. Ethridge, we are not in any type of agreement to a road development inside of our property in relation to this development. Please let us know if we need to be present personally for the board meeting

tomorrow.

Best regards,

MotaghianMD & Fereidoon ParsioonMD.

Subject: Re: Please confirm you received the new proposal from Canale and Ethridge

David,

At the Dahlhoff meeting, which you and I attended, the architect with Grey's Creek Association recommended strongly in opposition to eliminating the north / south road. However, in your letter to OPD, you recommend in favor of eliminating the north / south road. Did you make a mistake in your correspondence to OPD; or, has there been a change in the Association's position, which you can explain to area residents, including me and the Holly Grove homeowners association?

Also, you opposed the development of the Wal-Mart center directly to the north of the property for various stated reasons, including traffic / roadway concerns. The Canale development is more retail square footage; and, the traffic considerations are equal or worse.

However, in your letter to OPD, you recommend in favor of the development. Did you make a mistake in your correspondence to OPD; or, has there been a change in the Association's position, which you can explain to area residents, including me and the Holly Grove homeowners association?

Please advise.

Thanks.

Joe

Re: Woodland Hills

Dear Brian:

I cannot begin to tell you how much Jim Ethridge, Lisa Wilbanks, Bob Dalhoff, and I appreciate the great cooperation you have given us to bring about a conclusion at the Land Use Control Board relative to the above styled matter. We would very much like to have this forwarded to the County and City, such that the hearings can be in January on the 12th or 19th at the County and on the 3rd of February at the City. If this is not possible, the earliest possible date is appreciated. I will be out of the City the week of the 25th, returning on February 1st. Please keep me advised.

You and/or Mary may wish to discuss further the language concerning the north/south road. If there are any other matters we need to discuss, please let me know immediately.

Sincerely,

Ronald M. Harkavy

Subject: Re: Woodland Hills II P. D.

To All Concerned:

The proposed Woodland Hills II P. D. will be served by the following schools:

Macon-Hall Elementary Grades K-5, Capacity 700, 2008-2009 Enrollment is 1072. Currently using 16 portables. No space available without additional portables.
 Mt. Pisgah Middle School Grades 5-8, Capacity 1175, 2008-2009 Enrollment is 1230. At capacity. Additional student load will likely require portables.
 Germantown High Grades 9-10, Capacity 2000, 2008-2009 Enrollment is 1696. Space available.
 Cordova High Grades 11-12- No further comment on this Memphis City School.

The split in high school zone is due to recent rezone and end of joint agreement with MCS regarding Cordova High. Over the next two years, all high school students in this particular area will be zoned for Germantown High.

Subject:

On Woodland Hills II please do the following things:

1. Get comments from Shelby County Schools if we do not have them.
2. Create an aerial photograph showing block lengths in the area with and without the street connection through the existing street.
3. Contact Regional Planning and request comments similar to the ones we received from them on Canale Grove and Woodland Hills II
4. Ask them if they want to join us in meeting with the developer and engineering to discuss preserving an interconnected street system.

Let me know when you have the information so we can discuss it. MaryB
